THE SAGE DAD

SMALL ADVENTURES. TIME TOGETHER.

Make Your Own Flipbook: Draw 12 Frames That Move

SD-B172 / STRATEGISTS · AGES 10–12

Draw one tiny change in each frame, then cut, stack and flip to watch it move.

YOU NEED: pencil, colored pencils, scissors, a stapler

Idea starters: a bouncing ball, a flower growing, the sun rising, a blinking face, a rocket launching. Change only a little in each frame!

STAPLE 1	STAPLE 2	STAPLE 3
STAPLE 4	STAPLE 5	STAPLE 6
STAPLE 7	STAPLE 8	STAPLE 9
STAPLE 10	STAPLE 11	STAPLE 12

Tip: draw frame 1 and frame 12 first, then fill in the middle.

GROWN-UP GUIDE: Cut along the dotted lines, stack frames 1 to 12 with 1 on top and staple the left edge. Flip with your thumb. Tracing the last frame lightly onto the next is how real animators work.
