

Rocket dot-to-dot

AGES 5-10 / ABOUT 10 MIN / WITH A GROWN-UP

1. Start at the dot marked 1. Draw a line to 2, then 3.
2. Keep going in order until you get back to the start.
3. Color your rocket. Draw where it is flying to.

Grown-up tip: say the numbers out loud together. Younger kids can point to each number before drawing the line.
