THE SAGE DAD

SMALL ADVENTURES. TIME TOGETHER.

Roll, Slide, or Stay?

SD-B056 / EXPLORERS · AGES 4–6

Test which things roll, slide or stay still on a ramp.

YOU NEED: A tray or board; 1 to 4 books; a ball, a block and a toy car; crayons

MEET	Lean the tray on one book to make a gentle ramp. Keep one hand on the bottom.
WATCH	Let go of the ball at the top. Does it roll, slide or stay? Watch where it stops.
TRY	Test the block and the toy car. Draw each one under ROLLS, SLIDES or STAYS.
CELEBRATE	Add a book to make the ramp steeper. Did anything change what it does? Tell someone.

GROWN-UP GUIDE: Hold the ramp steady and keep it low. Let your child guess before each try. Results can differ with different trays and objects, and that is part of the discovery.
