THE SAGE DAD

SMALL ADVENTURES. TIME TOGETHER.

Two Sides of the Same Day

SD-B090 / DISCOVERERS · AGES 7–9

Draw one event from two people's points of view and explain the difference.

YOU NEED: Pencil

DISCOVER	Pick one small event from today, like lunch, a game or a chore.
PREDICT	How might another person remember it? Write your guess.
SOLVE	Draw the event the way you saw it, then the way they might have.
EXPLAIN	What is different? Why might two people see one day differently?

VISUAL THINKING SPACE

MY SIDE

THEIR SIDE

What I guess they felt

I think they felt... because

What is different

The biggest difference was

GROWN-UP GUIDE: Choose a calm everyday event, not a fight. Let your child draw both versions before you comment. If you can, ask the other person how they remember it and compare with the guess.
