THE SAGE DAD

SMALL ADVENTURES. TIME TOGETHER.

Which Cup Holds More?

SD-B081 / EXPLORERS · AGES 4–6

Count scoops to find which of three cups holds the most.

YOU NEED: Three cups of different shapes, a scoop, rice or water

MEET	Pick three cups that look different. Which do you think holds the most?
WATCH	Use a small scoop. Count how many scoops fill each cup.
TRY	Write the number for each cup in the table.
CELEBRATE	Was your guess right? Which cup held the most?

SCOOP COUNT

	My guess (1st, 2nd, 3rd)	Scoops it held
Cup A		
Cup B		
Cup C		

Draw my cups

Most to least

1st ___ 2nd ___ 3rd ___

GROWN-UP GUIDE: Pour water over a tray or use dry rice on a baking sheet. Count each scoop aloud together and keep the scoop level. A tall thin cup can hold less than a short wide one, which is a good surprise.
